**Subject:** Temperature Logging of wells R-07 and R-08  
**Attachments:** ATT00001.txt

Hi Nancy,

Per our earlier discussion, we're experiencing some motor issues in wells R-07 and R-08 and are making arrangements to replace three motors within the next two days. While these wells are out of service, we would like to conduct temperature logging per the Demonstration of Mechanical Integrity Testing Plan submitted to EPA earlier this month. Please let me know if we could proceed with the proposed temperature logs at your convenience?

Best Regards,

**Dan Johnson** VP | General Manager
